

	RD 1000
Characteristics	
Capacities	Maxi : 1000 x 500 mm Maxi thickness : 50 mm
Cutting speed	0 – 750 mm/min
Axis maxi speed	60 m/min 360°/s
Torch	Type MACH 3S
Profile sensing	Integrated to the torch
Anti-collision system	Multi-axis on the torch
Lightening position of the torch	On the whole length of the machine
Minimum length of bars	1 800 mm
Power installed	10 kW
Automatism	Purely software based solution for real time work

VERNET BEHRINGER reserves the right to modify technical data without prior notice
Characteristics are given for E24 / ST37 steel
